

特別資訊

就近日有關三號幹線隧道安裝多個鏡頭的網上傳言，快易通有限公司作出以下聲明：

該新安裝的儀器為快易通有限公司的自由流收費系統(Free Flow Tolling System)測試裝置。此系統的收費模式採用無線射頻識別(RFID)及車牌識別技術，為現有快易通有限公司電子道路收費(ETC)技術的加強版。該技術設計完全符合香港《私隱條例》的規定，當中亦不包含任何人臉識別功能。所有裝置將於 11 月中完成測試後拆除，而所有收集到的資料只會作內部分析用途並將不作儲存。

SPECIAL ANNOUNCEMENT

Autotoll Limited wishes to make this announcement in response to rumours that cameras installed at Route 3 appeared in social media in recent days.

The newly installed devices are for the testing of Free Flow Tolling System. This toll collection system uses the RFID and Vehicle License Plate Recognition, which is the upgraded version of the exiting Autotoll ETC system. The technology and design of Free Flow Tolling System completely fulfil requirements of the Personal Data (Privacy) Ordinance in Hong Kong and no Facial Recognition in this system. All the devices will be dismantled after the testing in mid-November. All collected information is used for internal analysis purposes only, and no data will be stored.
